

coming dangerously active along two railroads leading from Vera Cruz to the capital.

The cruiser Tacoma sailed today for an unknown destination, supposedly Tuxpan or Tampico.

Manuel Madero, the last member of the family of the late President remaining in Mexico, arrived on the same train with fifty soldiers and was taken immediately to the fortress prison of San Juan de Ulla. He is charged with complicity in a plot against the government.

Refugees in Laredo.

Laredo, Texas, November 30.—General Gerónimo Treviño, former commander of the Federal troops in Northern Mexico, and one of the most prominent of the old Mexican statesmen, with his wife and three daughters today arrived here as a refugee together with members of thirty-five wealthy families of Northern Mexico. They will go to his ranch near Rio Rio, Tex., and later to Sacramento, Cal. The other refugees will remain in various parts of the United States and Europe until conditions in Mexico are changed. General Treviño would not comment on the Mexican situation.

Many Mexican citizens reported that while there had been no untoward happenings since the unsuccessful Constitutionalist seizure last October, the city was much alarmed by the fact that the wealthy families of Northern Mexico were fleeing to the United States. It is believed here that the object of the departure of wealthy families is to escape forced loans, which when failed to be paid led to incarceration and reprisals.

Will Seek to Obtain Loan.

Sancti Spiritus, Nov. 30.—Manuel Garza Aldasoro, who recently held the portfolio of Minister of Interior in the Mexican Cabinet, today reached here on the steamer Espana. He is bound for Paris and later will return to visit one of his children who is being educated there. He is accompanied by his wife and six children.

The minister said he had no special mission abroad, but he let it be understood that he would try to arrange a loan in France in behalf of the Federal administration for military purposes, which he explained, he expected to be partly arranged. He expects to remain in Europe about seven months.

Although no special mission had been imposed upon him, Senor Aldasoro said he would endeavor to enlist the sympathies of the European countries for Mexico. He did not believe the United States would actively intervene in the difficulties now rending his country.

With regard to General Carranza, he estimated that the Constitutional leader had not more than 15,000 armed men, and was in control of the provinces of Durango and Sonora.

General Felix Diaz, in the opinion of Senor Aldasoro, would in no wise contribute to the agitation for a great patriot, and was supported by men of worth. He greatly doubted that General Carranza would return to Mexico, but if he did he would have the magnificent reception his glorious career merited. Senor Aldasoro will land at St. Lazare and proceed from there to Paris.

To Sail for Mexican Waters.

[Special to The Times-Dispatch.] Philadelphia, Pa., November 30.—Orders were received today at the League Island Navy-Yard for the battleship Montana to be made ready for sailing to Mexican waters as quickly as possible. The torpedo boat USS Albatross, ordered to sail at once, and another vessel, supposedly the battleship Mississippi, has been ordered to prepare to sail on forty-eight hours' notice. The transport Hancock is under rush orders, too, and will be placed in active commission some time this week.

The Marines attached to the Montana will be sent aboard the Montana, unless men can be obtained from other posts. It is planned to make a draft on other nearby posts in order that a regiment may be held in reserve here.

Junarez May Be Made Capital.

Junarez, Mexico, November 30.—Francisco Escudero, Minister of Foreign Relations in Carranza's Cabinet, on arriving from Hermosillo today, confirmed with General Villa regarding the future capital of the revolutionary government. Escudero said that he was virtually sure that Carranza would move the capital to Junarez, and that it would be conducted much as was Carranza's capital after the success of the revolution against Diaz.

Carranza Awaits Next Move.

Hermosillo, Mexico, November 30.—General Carranza and his advisers today appeared to have assumed a policy of waiting for the result of Francisco Villa's attack on Chihuahua City, and the outcome of William Bayard Hailey's conference with President Wilson at Washington before making either a military or diplomatic move.

Tampacora, Mexico, today was opened as far south as Matamoros, the insurgent base above Guaymas.

A party of Constitutional civil officials and army officers today left for Chihuahua, capital of Sonora, to recognize the military and civil governments of the State. Meanwhile, a West coast report, the only one in the state not controlled by the insurgents.

Advancing on Nuevo Laredo.

Brownsville, Texas, November 30.—Constitutionalists soon will lay siege to Nuevo Laredo, Mexico, opposite Laredo, Texas, according to a reliable source. The source said that the insurgent forces are now moving around Constitutional headquarters in Matamoros. General Pablo Gonzalez, commander of the Constitutional forces, recently captured Victoria, in Matamoros, for a conference with General Juan Carranza, and it is reported that a column of 1,000 Constitutionalists, which recently left Matamoros, is advancing along the border toward Nuevo Laredo.

IN BEST OF HEALTH.

Former Borden Victim to Ottawa From Virginia Resort.

Ottawa, November 30.—Robert L. Borden, Premier of Canada, today arrived home after a sojourn at Hot Springs, Va. Mr. Borden announced that he was feeling in the best of health. The Premier declared there was nothing official in the visit, but he made to Washington on his return journey.

FINAL TOUCHES TO DECISIONS.

Number Will Be Announced by Supreme Court Today.

Washington, November 30.—The justices of the Supreme Court, in closed session, have given final touches to a number of decisions to be announced tomorrow. More than seventy-five cases now are awaiting final action by the court, but which of these the justices have been considering during the Thanksgiving recess tonight remained a mystery.

REAR NOT UNEXPECTED.

Incompatibility of Temperament Reason for Expected Divorce.

Stockholm, Sweden, November 30.—Incompatibility of temperament is believed here to be the real reason for the expected divorce of Prince William, second son of the King, from his wife, Princess Alexandra, daughter of Duke Paul Alexandrovich, and a cousin of the Czar. The princess left Stockholm about the same time the Russian minister, M. Savinsky, took his departure. The minister donated some after the military attack, Colonel Assanovitch, was practically dismissed from Sweden for spying.

All sorts of gossip was caused by this extensive Russian agent. Some reports had it that the princess had been engaged with the minister in the espionage which caused the attack. In court circles, however, it is said that the rupture between the young royal couple was not unexpected.

Meryn Shaw Arrested Charged With Theft of \$75,000.

[Special to The Times-Dispatch.] New York, November 30.—Meryn Shaw, twenty-five years old, was arrested today charged with the theft of \$75,000 from the Toronto, Canada, branch of Swift & Co. Shaw is being held at the request of Chief of Police Grossett, of Toronto, who telephoned the demand to the warden for Shaw for the embezzlement of \$75,000.

Shaw broke down soon after being arrested, and admitted he was the man wanted in Toronto, but denied taking so large an amount.

"The \$75,000 is all a mistake," said Shaw. "I only got about \$1,000, and such a large sum is missing, some one else must have taken it, and passed the buck to me."

Who and when had nothing to do with it. Shaw said he never picked a penny, but twice in his life. My customers were horsemen and hotel men. I sold into the game. I handled thousands of dollars a week, and my salary was \$12 a week. The temptation was too great."

Shaw was arrested upon evidence contained in an endorsing letter, written by a Canadian woman. Shaw turned the letter into bits and thrown it into a waste-basket. This letter, together with several others, was found by detectives investigating under the name of "M. A. Oakes" and "A. M. Frazer."

ON TO MEXICO CITY IS VILLA'S SLOGAN

Proposed Capture of Chihuahua Only an Incident of Further Advance Later.

Junarez, Mexico, November 30.—General Francisco Villa, Constitutional commander, today said that Northern Mexico, embracing the States of Sonora, Chihuahua, Coahuila, Nuevo Leon and Tamaulipas, and including the territory from the border to a line drawn southward, in two weeks, will be wholly under the authority of the rebel forces.

The forces which are fighting Huerta then will join at Guadaluajara with a force numbering up to Mexico City. This campaign, he said, contemplated not only the capture of Chihuahua City, but also the spreading of the Constitutional authority farther south. He is to be joined in the interior later by General Venustiano Carranza, head of the revolutionary movement.

So far as the north is considered Villa said the campaign is between 14,500 Federal troops, mostly in garrisons, and 20,000 rebels or Constitutionalists in garrisons and roaming the country.

The approximate strength of the opposing forces in the north, as gathered from official sources by Villa and made known by him to-day is:

At Guaymas, Sonora, 3,000 Federal troops commanded by Pedro Ojeda. At Chihuahua City, 5,000 Federals, commanded by General Salvador Mercado. At Saltillo and Monclova, Coahuila, 2,000 Federals.

At Monterrey, Nuevo Leon, 2,000 Federals. Scattered, 1,500 Federals.

Opposed to the Federals and their positions are:

In Sonora, about 5,000 rebels, under command of General Carranza. At Juarez and en route to Chihuahua City, 5,500 rebels, commanded by Villa.

South of Chihuahua City, 5,000 rebels, commanded by General Manuel Chao. Scattered and at other cities, 8,000 rebels.

In preparation for the attack on Chihuahua City, 3,500 troops with sixteen machine guns and equipment, which were sent by train, had left Juarez up to-day, and reached a point fifty miles south.

Villa expects to join his men within a few days and if possible to keep open train and telegraph service behind.

He said he would be in Chihuahua City within ten days.

The capture of that city, he insisted, will be only an incident of further advance later, in conjunction with Carranza and other rebel forces.

"We will move on to Mexico City," Villa said. "That is our destination. The troops now in Sonora will move southward attacking Guaymas on the way. Those now centered around Victoria will move southward while I will go right through the heart of the country. On the way I will take Chihuahua. Then I will join the army and the western wings of our army at Guadaluajara. Combined we will march to Mexico City."

Chihuahua City has been cut off from communication for more than two weeks. At that time it was said the Federal forces had made every preparation to oppose the rebel attack. Almost all the food supplies have been exhausted.

Gigantic Trap Planned.

New Orleans, La., November 30.—A special dispatch to the Item from Mexico City says:

"The most gigantic trap ever laid on a battlefield in the New World is being prepared by General Carranza and his 7,000 Federal troops for the rebels of the Northern Mexican Revolution. The trap is being laid at the request of Chief of Police Grossett, of Toronto, who telephoned the demand to the warden for Shaw for the embezzlement of \$75,000."

Shaw broke down soon after being arrested, and admitted he was the man wanted in Toronto, but denied taking so large an amount.

"The \$75,000 is all a mistake," said Shaw. "I only got about \$1,000, and such a large sum is missing, some one else must have taken it, and passed the buck to me."

HUERTA WILL NOT LACK FOR FUNDS

Persuasive Methods Already Used—Interest in Wilson's Message to Congress.

Mexico City, November 30.—The possible treatment of the Mexican question by President Wilson's coming message has aroused considerable interest among Mexican government officials, but there is a notable absence of conviction that neither intervention nor the supplying of arms and ammunition to the rebels will be recommended. The continuation of the financial blockade against Huerta will not regard as a vital blow to his administration, however feeble it may be. Anything short of intervention or the supplying of arms and ammunition to the rebels will be regarded with complacency by General Huerta, who is prepared to pursue a dogged course of resistance against his enemies, although he realizes it means indefinite warfare.

His friends point out that although the government may be bankrupt, the Provisional President is far from being entirely without money as long as private institutions and corporations possess funds. They are of the opinion that the President will not fall for the sake of what he considers right, to resort to forced loans. Indeed, persuasive methods already have been used.

In the Mexican republic there are many men rated as millionaires and several large corporations whose properties might be available for protective taxation.

There are millions to be had for the taking, and General Huerta's admirers believe he will be acting in accordance with the simple method of borrowing if he utilized this money for defense.

Special taxes have been announced, which now cover 10 per cent of the net and will net at least \$3,000,000 annually to the government. It would be quite feasible, it is pointed out, to augment this amount materially by the simple method of still further increasing the taxes. No avenue which might produce funds for the government is being overlooked.

No confirmation is available of yesterday's report that the government has obtained a 7,000,000 pesos loan. It is pointed out, however, that the optimism that further foreign loans will be obtained. The military situation throughout the country has shown no improvement in the last week so far as the government is concerned, and there is slight indication that much progress will be made the coming week.

The movement of rebels south of Saltillo towards San Luis Potosi today continued, the rebels entering Central on the branch railway leading to Victoria. Huerta's troops, who were earlier in the year, have been sent north in an effort to check the movement. No fighting has occurred in the last few days, but without holding back the rebels.

In the State of Zacatecas, according to the newspapers' reports, some advantage has been gained by Huerta's troops, but the mobility of the rebels has gone far toward neutralizing the advances made by the government.

Exactly what is going on throughout the republic it is impossible to ascertain because of lack of communication and rigorous military censorship.

Notwithstanding that the government has imposed a censorship on the local newspapers, the head of the Department of the Interior has intimated that the newspapers' representatives that are in Mexico should be kept in the manner in which the news is being handled.

The same intimation has been given by the military governor of the State of Vera Cruz to the newspapers of Vera Cruz. There now is being published in the capital almost no news affecting the military situation, excepting that which emanates from the government departments. No censorship has been placed on newspapers published in Mexico, but it is reliably reported that such a step is being considered.

RIVERS CONGRESS MEETS THIS WEEK

Unusually Large Number of Waterway Enthusiasts Expected to Attend.

[Special to The Times-Dispatch.] Washington, November 30.—"All the indications point to one of the largest conventions ever held here," said S. A. Thompson, secretary of the National Rivers and Harbors Congress, which meets in its tenth annual session on Wednesday at the New Willard. "Delegates have been appointed by the Governors of most of the States, by the Mayors of scores of cities and by commercial organizations in all parts of the country."

"The approaching completion of the new large canal and the recent convention of the New York State Waterways Association have stirred up unusual interest, and as a result we expect the largest delegation that has ever attended any of our conventions from the Empire State."

"A special train is to be run from Chicago, bringing delegates from that city and points bordering on Lake Michigan."

"Officers of the Ohio Improvement Association decided early in the fall to order an annual convention in order that the members of that association could come to Washington, participate in the deliberations of the National Rivers and Harbors Congress and at the same time visit the new willard, with the members of the Rivers and Harbors Committee of the House, which originates the river and harbor bill. In view of this, the association has more special trains carrying delegates from Louisville, Cincinnati and other points along the Ohio."

"Disinterested lay people, who are thoroughly aroused to the necessity of doing something to check the ravages of floods, will be here in strong force, by correspondence showing that at least 500, and possibly more delegates will be present to represent the interests of that great water highway."

"As one entire time and place, the waterway enthusiasts of Texas claim that the 'Palace Special,' which they will run from Houston by way of New Orleans, Montgomery and Atlanta, leaving Houston 2 o'clock Sunday morning and due in this city Tuesday morning, will be the finest and fastest train ever run from the Lone Star State."

"An entire section of the Congress is to be devoted to consideration of waterways along the Atlantic and Gulf coasts, there will undoubtedly be a large attendance from the territory interested in these projects, with a good number of New Englanders to help the work along."

"The Rivers and Harbors Congress stands for a broad and comprehensive policy of waterway development, and is an unflinching advocate of an annual river and harbor bill commensurate with the
